CURRICULUM VITAE

Abdelkader Bensoula

Tech Lead Data & Analytics

10+ years Of Experience

PROFESSIONAL SUMMARY

- Tech Lead Data & Analytics with 10+ years of experience designing, modernizing, and governing enterprise analytics solutions across global and operational environments.
- Specialized in Microsoft Fabric, Power BI, cloud data platforms, semantic modeling, analytics performance engineering, data governance, and AI-ready data foundations. Experienced in supporting large-scale analytics ecosystems across Finance, Supply Chain, Marketing, Manufacturing, Sales, and Human Resources.
- Microsoft-certified in Microsoft Fabric, Azure Data Analytics, and Power BI, with experience in GCP BigQuery, Databricks, Snowflake, SAP HANA, SQL, Python, and automation.
- Combines hands-on technical depth with platform leadership to deliver secure, scalable, high-performing, and trusted analytics products. Focused on enabling governed self-service analytics, modern cloud data architectures, reliable semantic layers, and AI-assisted decision support.

CORE EXPERTISE

- Enterprise Data & Analytics Architecture
- Microsoft Fabric, Power BI & Cloud Analytics Platforms
- Semantic Modeling, KPI Design & Analytics Engineering
- Data Governance, Security, Access Management & Center of Excellence
- Cloud Modernization: Azure, Google Cloud BigQuery, Databricks & Snowflake
- Performance Engineering, Capacity Optimization & Platform Reliability
- Agentic AI, Generative AI Enablement & Analytics Automation
- Technical Leadership, Stakeholder Management & Global Team Enablement

PROFESSIONAL EXPERIENCE

Mar 2023 – Present
Tech Lead Data & Analytics
Global Data Platform
Paris, France (Global Remit: EU, SAPMENA, AMERICAS)

TECH LEAD DATA & ANALYTICS | L'Oréal Beauty Tech

Provide technical leadership for global analytics capabilities within L'Oréal's data platform, supporting Finance, Supply Chain, Marketing, and other business domains. Contribute to the evolution of a scalable, governed, secure, and AI-ready analytics ecosystem.

Global Platform Architecture & Governance

- Govern enterprise Power BI / Fabric tenant serving 30,000+ business users across 3 regions (4,000+ workspaces, 200,000+ items) with tiered governance from policy setting to incident resolution.
- Manage 7,684 CUs of Fabric capacity across 58 nodes, optimizing resource allocation and query performance for global workloads.
- Establish platform-wide RBAC and RLS security policies, ensuring strict data compliance across Finance, Supply Chain, and Marketing domains.
- Partner directly with Microsoft Product Engineering on L4 escalations; co-developed DAX Fusion optimization patterns adopted as global standards.
- Beta-tested preview Fabric features (BigQuery mirroring, ADBC connector, Entra ID auth) to resolve performance bottlenecks prior to GA release.

Microsoft Fabric & Cloud Data Modernization

- Architected technical migration strategy moving mission-critical semantic models (Retail, Finance Cockpit, Supply Chain) from GCP BigQuery to Fabric OneLake.
- Modernized ETL pipelines utilizing Fabric Mirroring, Notebooks, Pipelines, Data Warehouse, and KQL Eventhouse.
- Rebuilt Row-Level Security (RLS) policies within Fabric while maintaining optimal query performance.
- Evaluated storage modes (Direct Lake, Direct Query, Import, Composite) through rigorous benchmarking to architect optimal workloads.
- Built automated reconciliation framework (PowerShell, Python, REST APIs) ensuring data fidelity with no reported business disruption.

Performance Engineering & Quality Assurance

- Re-engineered DirectQuery architectures, reducing 2–3-minute timeouts down to sub-10-second response times for senior leadership.
- Achieved 70% performance boost across core workloads by establishing and leading a global DirectQuery optimization task force.
- Engineered automated load-testing tool simulating 100+ concurrent users via DAX Studio and Fabric Notebooks; instituted as mandatory certification gate for 400+ developers.
- Reduced deployment rollbacks by 80–90% through performance certification standards.
- Established Confluence knowledge base for Developer Experience, Best Practices, and Performance Optimization; trained 50+ global teams on delivery standards and lineage tracking.

AI-Enabled Analytics & Automation

- Deploy agentic AI workflows in production for automated governance validation and documentation, cutting manual review time by 60%.
- Integrate internal analytics knowledge base with enterprise GenAI platform, eliminating Tier-1 support tickets through automated self-service.
- Deliver dozens of governed semantic data assets to support enterprise Generative AI and natural-language business querying.

Aug 2018 – Mar 2023
BI, Data & ERP Consultant
KIA

Delivered business intelligence, data integration, and ERP initiatives supporting supply chain, sales, customer relationship management, and human resources operations.

Supply Chain Analytics & Business Intelligence

- Architected end-to-end analytics platform spanning procurement, logistics, manufacturing, inventory, sales, and CRM, serving 1000+ business users from operational teams to C-suite.

	• Defined enterprise KPI frameworks through structured workshops with 50+ stakeholders across 6 business domains; standardized reporting priorities and analytical dimensions. • Built data integration layer using Talend ETL to unify SAP, Produmex, Odoo, HR Access, and legacy Excel sources; designed star schemas processing 10k+ records/day with automated cleansing rules. • Developed SAP HANA SQL procedures and complex DAX calculations powering Power BI dashboards for supplier compliance, transportation costs, and delivery performance; reduced manual reporting time by 60%. • Established Power BI workspace governance and RBAC security for 50+ reports; trained 100+ users on self-service analytics and best practices. **CRM & HR Transformation** • Led full-cycle implementation of Odoo CRM and customer portal for 50+ sales users; improved sales-order visibility and after-sales tracking, reducing order inquiry response time from 2 days to 4 hours • Directed deployment of Sopra HR Access covering payroll, talent management, and time/attendance for 1000+ employees across 8 entities; delivered workforce analytics dashboards enabling real-time headcount visibility for 3 manufacturing plants.
Jun 2016 – Aug 2018 **BI, Data & ERP Consultant** **Hyundai**	**Delivered manufacturing analytics and ERP transformation initiatives to improve operational visibility, supply chain execution, and data quality.** **Manufacturing Performance Management & Analytics** • Architected centralized manufacturing analytics platform providing near-real-time visibility into production, warehouse operations, inventory, costs, and quality for 500+ users across 2 plants/sites • Defined operational KPI framework with manufacturing and supply chain leadership, standardizing metrics for production efficiency, OEE, quality defect rates, and inventory turnover across 6 production lines • Built automated ETL pipelines consolidating SAP HANA, Produmex, CSV, and Excel sources; designed data models processing 5k+ records/day to power Power BI dashboards • Enabled real-time quality alerting reducing scrap by 60% through production monitoring dashboards adopted by 20+ operators/managers **SAP Business One HANA & Produmex ERP Implementation** • Led end-to-end implementation of SAP Business One HANA + Produmex integration for manufacturing operations, managing 8-month rollout across 3 sites. • Directed full project lifecycle: requirements analysis, cross-functional workshops with 20+ stakeholders, system configuration, technical installation, and master-data migration. • Developed operational reporting suite using SAP Crystal Reports; delivered post-go-live support and training for 50+ end users.
Oct 2015 – Jun 2016 **ERP Consultant** **RENAULT**	**Supported the deployment and operational adoption of a dealer management system across authorized dealer agencies.** • Supported the implementation and administration of a Dealer Management System (DMS) to centralize dealer operations across the authorized network. • Deployed and supported the platform for multiple dealer agencies, helping ensure operational continuity and user adoption. • Conducted business-needs analysis and delivered end-user training to improve system utilization and user satisfaction. • Collaborated with development and business teams to support system integration and improve data consistency across dealer operations. • Established data-consolidation and monitoring processes to strengthen data integrity and synchronization between dealer systems. • Produced monthly performance and management reports aligned with operational-monitoring and strategic-management needs. • Contributed to the design and implementation of digital solutions supporting dealer operations and customer engagement. • Supported network and security administration activities using Sophos solutions.

Nov 2014 – Jun 2015 **DATA ANALYST INTERN** **SONELGAZ**	**Contributed to the delivery of a business intelligence solution supporting human resources reporting and workforce decision-making.** • Gathered requirements with Human Resources stakeholders to define reporting needs, analytical dimensions, workforce indicators, and management priorities. • Designed and implemented a Business Intelligence solution supporting HR analytics and workforce-planning activities. • Developed and orchestrated ETL processes using Talend to integrate and transform HR data from multiple sources. • Defined and optimized HR KPIs, including payroll evolution, internal mobility rate, recruitment cost, and workforce-monitoring indicators. • Developed SQL queries in SpagoBI to support KPI calculation and performance-optimized data retrieval. • Designed and deployed interactive reports and dashboards to support payroll analysis, workforce monitoring, and HR decision support.

TECHNICAL SKILLS

Data & Analytics Platforms	Microsoft Fabric · Power BI Desktop · Power BI Service · Power BI Premium · OneLake · Lakehouse · Semantic Models · Power BI Report Server · Power BI Embedded · Power BI REST API · Azure Synapse Analytics · Azure Data Factory
Cloud & Data Platforms	Microsoft Azure · GCP BigQuery · Databricks · Snowflake · SAP HANA · SAP Business One HANA · Hadoop · Spark
Data Modeling & Analytics Engineering	Dimensional Modeling · Star Schema · Snowflake Schema · Data Warehouse Design · Semantic Modeling · DAX · Power Query · DirectQuery · Composite Models · Incremental Refresh · Aggregation Tables · Query Folding · DAX Optimization · Performance Tuning
Data Integration & Automation	Azure Data Factory · Microsoft Fabric Pipelines · ETL/ELT · Python · PowerShell · SQL · JavaScript · REST APIs
Governance, Security & Operations	Data Governance · Data Quality · Data Lineage · Row-Level Security · Role-Based Access Control · Access Management · Tenant Administration · Workspace Governance · Capacity Management · Center of Excellence · Monitoring and Operational Support
AI-Enabled Analytics	Enterprise Generative AI · Agentic AI · LLM-Enabled Analytics Workflows · AI-Assisted Documentation · Semantic Model Data Readiness · Analytics Automation · AI Governance Foundations · Natural-Language Analytics · Governed Data Products
ERPs	SAP Business One HANA · SAP B1 Analytics · Produmex · SAP Crystal Reports · Odoo · SopraHR
Project Management & Methodologies	Agile · Scrum · SAP Activate · Accelerated Implementation Project · Stakeholder Workshops · Requirements Analysis · User Acceptance Testing · Technical Documentation

TRAINING AND CERTIFICATIONS

OCT 2025	**Microsoft Certified: Fabric Data Engineer Associate (DP-700)**
SEP 2025	**Microsoft Certified Trainer (MCT)**
JUN 2024	**Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)**
DEC 2023	**Microsoft Certified: Azure Data Fundamentals (DP-900)**
SEP 2023	**Microsoft Certified: Azure Enterprise Data Analyst Associate (DP-500)**
FEB 2023	**Databricks Lakehouse Fundamentals Accreditation**
JAN 2023	**Microsoft Certified: Azure Fundamentals (AZ-900)**
OCT 2021	**Microsoft Certified: Data Analyst Associate (DA-100) - (PL-300)**
JUL 2017	**SAP B1 Application Associate, SAP B1 Activate Project Manager**
JUN 2015	**Engineering Degree in Computer Science - ESI**
